

Eliminate Bullying

Part of the plan to eliminate bullying is having staff pay attention to the warning signs of a person being bullied and report it right away. It's important not to ignore any situation that could potentially lead to bullying.

Increase Regional Partnerships

The public health nurse was in Kalskag giving TB screening tests. The eye doctors were also in Kalskag facilitating community needs. Skiku is in Kalskag from 2/24-3/2. Both communities of Kalskag and Lower Kalskag will have the chance to ski after school.

The North vs. South Basketball Tournament for the boys was hosted in Kalskag. Bristol Bay won the overall trophy and the South was the regional winner. 4 different school districts and 4 different airlines were involved in making this tournament happen.

Increase Academic Performance

All three schools are working on attendance incentive programs to decrease chronic absenteeism in Kalskag as a part of their school improvement plans. The program will be cumulative and non punitive so all levels of attendance will be rewarded.

JOGES and ZLES will be implementing dibbles fluency tests for all students. This data will be used to identify learning objectives for students for site word fluency. This data will be a driving force in our Professional Development Calendar created for next year.

The ZLES and JOGES staff had professional development on giving students opportunities to respond as a group. This is important for students who are struggling in school to get more practice. Group responses also help the non-responders to be more confident in responding. Group responses also keep students engaged.

Increase Community and Parent Involvement

Part of the student attendance plans for all three schools is a reward for parents as well. Hopefully with some incentives some of the chronically absent students will have better attendance. Each student that reaches a certain level of attendance will have a different reward for the parents.

Integrate Alaska Native Culture

The Kalskag dance team has been invited to the Camai Festival in Bethel. The Kalskag dancers have been practicing their routine in their 8th hour elective with Mrs. Dorris. The Kalskag Dancers have also been asked to perform during halftime of the regional tournament in Akiak.
