

## **MKEA Teacher Representative Board Report 9-13-16**

Good morning,

My name is Julia Fischer and I am the new teacher representative. I have been living and teaching in Aniak for six years with my fiancé, and fellow teacher Todd Boynton. I look forward to representing the teachers of our district at the School Board meetings.

As Teacher Representative I will be highlighting teachers and students at each Board Meeting. I have created a google document for sites to sign up so we can highlight a different site each month. Once this document is finalized I will share it with the Board.

I also see my position as a way to help increase communication between the Board and Teachers and if there is anything I can do to help with this matter please let me know.

Thank you,

Julia Fischer
