

School Board Report
Kalskag Principal - Severin Gardner
April 10, 2018

JOGES

JOGES students are participating in cultural week activities. Students are making sun catchers, learning how to sew and making dance fans and masks. You can check out some pictures on Kalskag Schools face book page. Students at JOGES did not have to take the PEAKS test. The preschool graduation will be May 18th at 5:00pm. This is to celebrate the 4 year olds transition to Kindergarten.

ZLES

The month of March had dozens of ZLES students and their families participate during the open ski hours over spring break. Students have been working hard on lessons and preparing for the PEAKS test. Attendance continues to be strong this month. Students have been reciting the pledge of allegiance in Yupik each morning along with our elder mentors going over word of the day. Students are working hard on their PEAKS testing for the State of Alaska.

GMSHS

GMSHS students were able to participate in NYO this month. Steve Craft from Tuluksak was able to come to Kalskag and teach some of our students the NYO events. The students then traveled to Tuluksak to participate in their NYO event. Kalskag had three first place winners. Harvey Levi won the two-foot high kick. Eliza Wise won the Eskimo stick pull and Sharlissa Michealson won the Indian stick pull. This is the first time in a very long time that student from Kalskag have competed at an NYO event.

Students at GMSHS are working on their PEAKS testing. So far so good with the online version of the test. We did have a couple of power outages that tripped our cache server. Nothing our local tech liaison Chris Reich couldn't handle. He had the server back and running in no time.
