

Harvey Hoffman II
Kuspuk School District

President Report

Good morning everyone. My report is fairly short today. I would like to start by recognizing everyone in their efforts of doing what's best for our students. From all the staff, to all the community organizations like the tribal and city councils, to SAC committees and many other entities. I see the work being done at all levels and I appreciate everyone having the best interest of our students and their needs.

After receiving input from our communities and some serious consideration, our schools have returned to in-person learning with the full implementation of our smart start mitigation plan. We all understand the risks of COVID-19 and will do our best to enforce the best safety measures. Schools have always been a safe haven for the students, and we continue to provide that same environment during these unprecedented times. I believe it is crucial for our future to invest in education today, and prepare our youth for what's to come. We cannot do that by simply staying home anymore. Whenever possible, we must continue to show up everyday. I truly believe we have what it takes to succeed despite these challenges we face. All it takes is for each and every one of us to do our part in making that happen. Safely returning to the classrooms is a great first step.

This next portion of my report is always hard for myself, and so I imagine it's the same for everyone else. Our district has some resources available for students and staff alike, so please reach out and use them. On behalf of Kuspuk School District, we express our condolences to the following:

- Mishka Andreanoff of Crooked Creek
- Nicholas Nicoli of Aniak

We send our sympathy and comfort to the families and friends of those mentioned above.

I encourage everyone to read through all of our district reports, there is lots of great information throughout and I look forward to having a great meeting today.

This concludes my report. Thank you.
