## Strategic Plan Fall – 2013

Working *together* to  
achieve every student’s  
highest potential.

## Background Information

The Kuspuk School District determined that there was a need to have a strategic plan in place as a way to solicit input from stakeholders across the district to help keep moving the district forward in a positive direction.

Through a series of meetings, the new district motto and goals were developed as priorities on which the district should focus.

The District will work on implementation of the goals with input and assistance from district employees and resources, as well as on-going stakeholder participation. The implementation timeline for this strategic plan shall be over the course of the next 3 to 5 years with annual updates to the School Board (at a minimum) as well as the potential to modify the plan as they are completed to honor the intent of the plan.

## Frequently Asked Questions (FAQ's)

### **Why have a strategic plan?**

*To help guide the district as it moves forward to meet the needs of not only the students we serve but our communities.*

### **When will the district start implementing this plan?**

*Implementation has already begun, but it will be an on-going process that will be dynamic and every changing to meet the district and community needs.*

### **Who can help with the implementation?**

*Everyone is encouraged to help.*

### **How will the district know that it has met some or all of the goals?**

*Ongoing monitoring of the goals will be done to determine the next steps, continuation of programs and what updates may need to take place.*
